Contract/Bid No.

THE GOVERNMENT OF THE REPUBLIC OF TRINIDAD AND TOBAGO via the Ministry of Public Administration has received financing from the Inter-American Development Bank (IDB) and intends to apply part of the proceeds to payments under the project Electronic Government and Knowledge Brokering Program for the Supply and Installation of an Unmanned Aerial Vehicle Mapping System and Terrestrial Laser Scanner for the Division of Land and Surveys, Ministry of Housing, Land and Marine Affairs.

The Division of Land and Surveys is seeking to procure an Unmanned Aerial Vehicle Mapping System and Terrestrial Laser Scanner that will facilitate the co-ordination of aerial photography and provide updated mapping. The Unmanned Aerial Vehicle (UAV) would be used to provide coloured map and imagery products to serve the identical purpose of conventional aerial survey and to satisfy the needs of a demanding spatial data market. The terrestrial laser scanner equipment is expected to allow high precision surveying from the ground and would complement the work of the UAV system. Used together this equipment would allow the Division of Land and Surveys to meet the needs of the users whose spatial data requirements are of very high precision.

The services provided by this solution will allow the Division to effectively carry out its land management activities and to also to assist other State and private agencies in their developmental planning. To enable this, complete UAV and Laser Scanner systems, inclusive of vehicles, sensors, hardware and software are being procured.

The equipment and services to be provided for this specific component include but are not limited to—

1. Supply a complete UAV and sensor system for the conduct of aerial photographic data capture able to produce large scale digital photographs to be used in the production of orthophotos and digital terrain models.
2. Supply a terrestrial laser scanner system for the conduct of high resolution terrain mapping data capture.
3. Train and certify relevant personnel in the operations of the UAV and Laser Scanner systems.
4. Execute a field completion and validation exercise of both UAV and Laser Scanner systems.
5. Supply testing and maintenance tools, radio communication sets and binoculars.
6. Supply ruggedized field and high-end workstation computers.

The Central Tenders Board on behalf of the Ministry of Public Administration now invites sealed bids from eligible bidders to provide the Division of Land and Surveys with the Supply and Installation of an Unmanned Aerial Vehicle Mapping System and Terrestrial Laser Scanner.
