TENDER FOR CONSULTING SERVICES FOR THE DESIGN, SUPPLY AND INSTALLATION OF A NETWORKING SOLUTION FOR THE MINISTRY OF NATIONAL SECURITY, GOVERNMENT OF THE REPUBLIC OF TRINIDAD AND TOBAGO (GORTT) INTER-AMERICAN DEVELOPMENT BANK (IDB) LOAN NO. 1808/OC-TT

Specific Procurement Notice
Loan No: LO 1808/OC-TT
Project No. TT-056

THE GOVERNMENT OF THE REPUBLIC OF TRINIDAD AND TOBAGO via the Ministry of Public Administration has received financing from the Inter-American Development Bank (IDB) and intends to apply part of the proceeds to payments under the project Electronic Government and Knowledge Brokering Program for consulting services for the Design, Supply and Installation of a Networking Solution for the Ministry of National Security, Trinidad and Tobago.

The Ministry of National Security (MNS) has embarked on a project to establish and maintain a geospatial information solution to support the Ministry of National Security's business processes through a coordinated and centralized approach that results in reducing duplication of effort and a more effective and efficient decision making process. The MNS Enterprise Geographical Information System (eGIS) will be instituted as the central platform for providing GIS and GIS-related services to all users within the Ministry.

The eGIS will allow the user to combine and share many types of data onto a digital map and then analyse that information in an efficient manner. Enhancing the Ministry of National Security shared eGIS database is a critical step towards more effective and efficient emergency planning. The use of eGIS is a means of providing an analytical and visualization tool to synthesize and communicate information for crime assessment, planning and project development. Similarly, current, accurate GIS data will make many other divisions within the Ministry of National Security programs more efficient if they rely on geographic information in their decision-making processes.

The Ministry is seeking to develop an MNS Inter-connectivity Backbone (MNSIB) solution which will interconnect its major Divisional Offices and Agencies/Units in a robust, reliable and secure IP platform as detailed further in this bidding document.

In the context of the MNS eGIS Project, the MNSIB is being implemented to provide the connectivity platform that is required to make the eGIS solution as well as future enterprise grade solutions accessible to all Divisions within the Ministry. The MNSIB will also provide the high-bandwidth connections needed to facilitate replication between the Core Sites at the MNS General Administration (GA), Office of Disaster Preparedness and Management (ODPM) and Tobago Emergency Management Agency (TEMA) offices. The MNSIB will also include the TEMA Operations Centre in Tobago the major Disaster Management stakeholder and partner for the island of Tobago.

The Central Tenders Board on behalf of the Ministry of Public Administration now invites sealed bids from eligible bidders for consulting services for the Design, Supply and Install a Networking Solution for the Ministry of National Security. Bidding will be conducted through international competitive bidding procedures as specified in the Inter-American Development Bank's *Policies for Procurement of Works and Goods financed by the Inter-American Development Bank* (current edition), and is open to all eligible bidders as defined in the policies which can be found at website: <http://www.iadb.org/procurement>.

Bidding documents may be obtained during normal working hours from Monday to Friday during office hours 8 a.m. to 4 p.m. at the Central Tenders Board's Office, at address (1) below.

A pre-bid meeting will be held for prospective bidders on Thursday 12th September, 2013 at 10.00 a.m. at the Old Fire Station Building, Corner Hart and Abercromby Streets, Port-of-Spain.
