SPECIFIC PROCUREMENT NOTICE
LOAN No: LO 1808/OC-TT
PROJECT No. TT-056

THE GOVERNMENT OF THE REPUBLIC OF TRINIDAD AND TOBAGO has received financing from the Inter-American Development Bank (IDB) and intends to apply part of the proceeds to payments under the project Electronic Government and Knowledge Brokering Program for the Design, Development and Implementation of an Enterprise GIS for the Ministry of National Security (MNS), Trinidad and Tobago.

The MNS is embarking upon the development of an Enterprise Geographic Information System (eGIS) that will provide a coordinated and centralized approach to the Ministry's business activities which rely on a geospatial component. The eGIS solution will be scalable, robust and built for high availability to support the various functionalities needed in an end-to-end web GIS system. These include geospatial data modelling, geoprocessing, analysis, web services, mobile applications, desktop applications and development tools.

The services to be provided by this solution will be available to all Divisions of the Ministry, Specialised Agencies, Tobago Emergency Management Agency (TEMA), other strategic partners and the public.

Consultancy services required for this project include but are not limited to the following:

1. To design and implement a turn-key Enterprise GIS solution that is scalable, support high availability, secure and reliable. Additionally, to integrate and/or develop a suite of GIS based applications for dissemination of information to the public and collection information from the public.
2. To provide system migration and intergration for identified existing legacy systems that utilise a spatial component.
3. To develop in-depth test plans and conduct respective testing to ensure complete functionality and that system performance is in keeping with MNS performance standards.
4. To provide training in system administration, application and map development and Spatical Data management.
5. To provide data conversion, migration and re-configuration of the Ministry's existing Spatial Databases.
6. To recommend the required hardware equipment to support the performance and reliability of the GIS solution being proposed.
7. To recommend any improvements to work flows at select Divisions and Agencies of MNS.
8. To provide a three (3) year maintenance plan/service level agreement to provide updates, upgrades, patches and to conduct scheduled performance analysis/monitoring and evaluation.

In this regard, the Central Tenders Board on behalf of Ministry of Public Administration invites eligible firms to indicate their interest in providing the information establishing that they are qualified to perform the services required (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, financial capacity etc.). Interested firms should have experience in the design and implementation of enterprise GIS solutions and possess a track record of successfully carrying out similar projects.

Firms will be selected in accordance with the procedures as specified in the Inter-American Development Bank's *Policies for the Selection and Contracting of Consultants Financed by the Inter-American Development Bank* (current edition) and is open to all eligible bidders as defined in the policies which can be found at website: <http://www.iadb.org/procurement>.
