### CHAIRMAN'S STATEMENT

Trinidad Generation Unlimited (TGU) operates a fuel efficient 720-megawatt (MW) capacity combined-cycle gas-fired power plant at Union Estate in Vessigny, La Brea. The facility, initially a joint project of the AES Corporation and the Government of the Republic of Trinidad and Tobago (GORTT), is currently wholly owned by the GORTT. On July 6th, 2018, 100% of TGU'S shares were transferred from Union Estate Electricity Generating Company Limited (UEEGCL) to the National Investment Fund Holding Company Limited (NIFHCL).

As at year ended December 2018, the power plant achieved an Equivalent Availability of 92.86%, just short of its targeted 93%. This shortfall was due to unscheduled maintenance requirements necessary to maintain asset integrity. The Company's highest priority continues to be high performance in the area of Health, Safety and Environment (HSE) in order to ensure the continued well-being of our employees and stakeholders. To date, TGU employees have achieved a record of zero Lost Time Incidents (LTIs) since commencing commercial operations in 2011.

For the year ended December 2018, the Company achieved a profit before tax of US\$42 million, exceeding its budgeted projection by US\$1 million while achieving a profit after tax of US\$28 million. In the year 2017, TGU attained profit before tax of US\$40 million and profit after tax of US\$26 million. Total assets as at December 2018 amounted to US\$1.04 billion. Total equity amounted to US\$224 million as at December 2018, which represented a US\$18 million increase when compared to equity as at December 2017. This growth was driven by increases in retained earnings over the periods.

In November 2016, TGU issued its US\$600 million 144A RegS bond on the international financial market at a rate of 5.25%. The proceeds of this bond were utilised to fully repay the government for its non-equity injections towards the construction of the facility. The bond, which was four times oversubscribed upon issue, continues to perform well on the market - a clear indication of confidence in the Company's future performance by its international investors. As at December 2018, TGU's bond has a remaining life of nine (9) years. To date, the Company has successfully paid in total, US\$78.8 million of interest to its bondholders.

The Company currently holds investment grade ratings of BBB- as affirmed by international rating agencies Standard and Poor's and Fitch Ratings as at December 2018.

Over the two-year period ending December 2018, the Company launched, and continues to develop, its management framework and institutional strengthening activities which will provide the opportunities for growth and development in an environment of improving efficiencies and new technology. As a wholly owned subsidiary of the NIFHCL as well as an issuer of a major United States dollar (USD) denominated international bond, TGU is fully cognisant of its roles in the financial markets and its responsibilities to its shareholders. As a result, key areas of focus for further institutional strengthening will include internal monitoring, auditing and compliance functions and enhancements to the organisation structure and staffing to support these changes.

I wish to express my appreciation to our customer Trinidad and Tobago Electricity Commission (T&TEC), the NIFHCL, our company directors, our employees, and all other stakeholders for their contributions towards the continuing growth and sustainability of Trinidad Generation Unlimited.
