(Sections 4, 23 and 257)

**TYPES AND CLASSES OF INSURANCE BUSINESS**

For the purposes of this Act, insurance business shall be categorized according to types of insurance business and each type of insurance business will be subdivided into classes as follows:

**TYPE A—GENERAL INSURANCE BUSINESS**

- (1) “Liability Insurance Business” means the business of effecting and carrying out contracts of insurance against risks of the persons insured incurring liabilities to third parties, not being risks arising out of, or in connection with the use of, motor vehicles or out of, or in connection with the use of, vessels or aircraft or risks incidental to the construction, repair or docking of vessels or aircraft, or policies insuring employers against liability to pay compensation or damages to workers in their employment.
- (2) “Marine, Aviation and Transport Business” means the business of effecting and carrying out contract of insurance—
  - (a) upon vessels or aircraft or upon the machinery, tackle, furniture or equipment of vessels or aircraft;
  - (b) upon goods, merchandise or property of any description whatever on board of vessels or aircraft;
  - (c) upon the freight of, or any other interest in or relating to vessels or aircraft;
  - (d) against damage arising out of, or in connection with, the use of vessels, or aircraft, including third-party risks;
  - (e) against risks incidental to the construction, repair or docking of vessels including third-party risks;

(f) against transit risks (whether the transit is by sea, inland water, land or air, or partly one and partly another), including risks incidental to the transit insured from the commencement of the transit to the ultimate destination covered by the insurance; or

(g) against any other risks insurance against which is customarily undertaken in conjunction with, or as falls within the definition by virtue of any of the foregoing paragraphs.

(3) “Motor Vehicle Insurance Business” means the business of effecting and carrying out contracts of insurance against loss of, or damage to, or loss or damage arising out of or in connection with the use of, motor vehicles, inclusive of third-party risk but exclusive of transit risks.

(4) “Pecuniary Loss Insurance Business” means the business of effecting and carrying out contracts of insurance against any of the following risks:

(a) of loss to the persons insured arising from the insolvency of their debtors or from the failure (otherwise than through insolvency) of their debtors to pay their debts when due;

(b) of loss to the persons insured arising from their having to perform contracts of guarantee entered into by them;

(c) of loss to the persons insured attributable to their incurring unforeseen expenses; or

(d) neither falling within any of the foregoing paragraphs nor being a kind such that the carrying on of the business of effecting and carrying out contracts of insurance against them constitutes the carrying on of insurance business of some other class and,

excludes risks of loss to the persons insured attributable to interruptions of the carrying on of business carried on by them or to reductions of the scope of business so carried on.

(5) "Personal Accident Short-Term Insurance Business" means the business of effecting and carrying out contracts of insurance that would otherwise be Accident and Sickness Insurance Business under Type B except as follows:

(a) that are attached as riders or additional benefits to other General Insurance contracts and meet all of the following criteria:

- (i) have a policy period no longer than one year;
- (ii) have a period for which benefits may be payable following a sickness or accident of no longer than five years;
- (iii) have no provision for guaranteed renewability or guaranteed extension of cover;
- (iv) provide indemnity only if an event indemnified by the General Insurance contract to which it is attached occurs prior to or simultaneous with accident or sickness; and
- (v) have a premium no more than twenty-five per cent of the premium of the General Insurance contract to which they are attached; or

(b) that are standalone contracts of insurance and meet all of the following criteria:

- (i) have a policy period no longer than one year plus odd days;
- (ii) have a period for which benefits may be payable following a sickness or accident of no longer than five years;
- (iii) have no provision for guaranteed renewability or guaranteed extension of cover;

- (iv) to the extent that the policy provides benefits on death, that this component of the policy is a minor component and the benefits relate only to specific causes of death; and
  - (v) to the extent that the policy provides cover for medical and/or hospital expenses, that this cover is incidental to other coverage under the policy and is not the main component of the policy.
- (6) “Property Insurance Business” means the business of effecting and carrying out contracts of insurance against risks of loss of or damage to, real or personal property, not being risks of a kind such that the business of effecting and carrying out contracts of insurance against them constitutes marine, aviation and transport insurance business or motor vehicle insurance business and includes risks of loss to the persons insured attributable to interruption of the carrying on of business carried on by them or to reduction of the scope of business so carried on.
- (7) “Workers Compensation Insurance Business” means the business of effecting and carrying out contracts of insurance against the liability of an employer to pay compensation to workers, whether under statute or negligence, for accident or injury related to the employment.

#### *Incidental Business*

If a single policy covers risks that would fall into more than one class, the insurer may classify it into the class that represents the predominant risk. All other risks on the policy would be included in the dominant class and may be referred to as incidental business.

For example, a Home policy may include a legal liability cover, but the entire policy can be classified as Property.

This provision does not prohibit an insurer from allocating a policy to more than one Class if it wishes to do so. An insurer should consider allocating a policy to more than one class if each of the components is significant in its own right, the insurer determines the premium separately for each component and the insurer is able to separate claims into the relevant Classes.

*Market Practice*

In determining the appropriate Class for any policy, the insurer may consider normal market practice in making such determinations, in addition to the definitions in this schedule. For example major risks in the petroleum industry or insurance of certain construction projects may conventionally be regarded as Marine business, even though the definitions in this Schedule may classify the policy as Property.

If an insurer uses market practice in determining the appropriate Class it must do so on a consistent basis.

**TYPE B—LONG-TERM INSURANCE BUSINESS**

(1) “Accident and Sickness Insurance Business” means the business of effecting and carrying out contracts of insurance—

(a) in the case of accident—

- (i) insurance against loss resulting from bodily injury to, or the death of, a person caused by an accident; or
- (ii) insurance whereby an insurer undertakes to pay a certain sum or sums of insurance monies in the event of bodily injury to, or the death of, a person caused by an accident; and

(b) in the case of sickness—

- (i) insurance against loss resulting from the sickness or disability of a person other than loss resulting from an accident or death;
- (ii) insurance whereby an insurer undertakes to pay a certain sum or sums of insurance monies in the event of the sickness or disability of a person other than as a result of an accident; or
- (iii) insurance whereby an insurer undertakes to pay a certain sum or sums of insurance monies to reimburse expenses incurred for the health care, including the preventive care of a person other than as a result of an accident.

- (2) “disability income insurance” means insurance whereby an insurer undertakes to pay a certain sum monies in the event of—
- (i) bodily injury to a person caused by an accident; or
  - (ii) sickness or disability of a person other than as a result of an accident.
- (3) “Group Life Insurance Business” means the business of insuring the lives of a group of persons where it is written on a yearly renewable term basis and where the contract can be terminated by either the insured or the insurer.
- (4) “Industrial Life Insurance Business” means the business of effecting and carrying out contracts of insurance upon human life, premiums in respect of which are contracted to be paid at intervals of less than forty days and which are usually received by means of collectors.
- (5) “Ordinary Long-term Insurance Business” means the business of effecting and carrying out contracts of insurance that are payable—
- (a) on the death of a person;
  - (b) on the happening of an event or contingency dependent on human life;
  - (c) at a fixed or determinable future time;
  - (d) for a term dependent on human life,

and without restricting the generality of the foregoing includes—

- (i) insurance whereby an insurer, as part of a contract of life insurance undertakes to pay an additional amount of insurance monies in the event of the death by accident of the person whose life is insured;
- (ii) insurance whereby an insurer as part of a contract of life insurance undertakes to pay insurance monies or to provide other benefits in the event that the person whose life is insured becomes disabled as a result of bodily injury or disease; or

**SCHEDULE 7**

(Section 158)

**LIFE INSURANCE DISCLOSURE FORM**

**If you are replacing a current insurance policy, you should be given this form before you fill out an application for the new insurance. This form requires you to consider certain questions as you make the decision whether to replace your current life insurance policy.**

Replacing a life insurance policy means a transaction whereby life insurance is purchased in a single policy or in several related policies by a person from an insurer and as a consequence of the transaction one or more life insurance policies are—

- (a) rescinded, lapsed or surrendered;
- (b) changed to paid-up insurance or continued as extended term insurance or under automatic premium loan;
- (c) changed in any manner so as to effect a reduction in benefits;
- (d) changed so that cash values in excess of fifty per cent of the tabular cash value of the contract of insurance are released;
- (e) subjected to borrowing of any policy loan values whether in a single loan or under a schedule of borrowing over a period of time whereby an amount in excess of fifty per cent of the tabular cash value is borrowed on one or more life insurance policies; or
- (f) cancelled within one year after a new policy has been issued but does not include a transaction where—
  - (i) a new life insurance policy is made with an insurer with whom the person has an existing life insurance policy in furtherance of a contractual conversion privilege exercised by the person;
  - (ii) a life insurance policy is replaced by an annuity; or
  - (iii) a life insurance policy is replaced by group insurance.

**The new insurer must give you a copy of your policy once it has been approved. You have twenty days from the time you receive a copy of this disclosure form to withdraw the new application and receive a full refund of any premiums paid.**

Ask yourself the following questions as you consider replacing your current life insurance policy:

- (1) Is the new policy enough of an improvement to justify any new costs? All new policies have some new costs, such as those for underwriting, administration and commissions.
- (2) Do premiums under the new policy increase as you age? The premiums on some policies go up as you get older or if you get sick.
- (3) Are there circumstances where your new policy does not pay benefits? Your policy should specify whether the insurer will not pay because of suicide or because you provided incomplete information.
- (4) Does the new policy pay you as much as the current one? Make sure you look over the details of death benefits, cash value, and dividends carefully.
- (5) Does the new policy guarantee to insure you, or allow you to increase your insurance coverage, no matter what your future medical condition? Your current policy may do this.
- (6) Does your new policy let you borrow money at attractive interest rates? Your current policy may do this.
- (7) Are you losing tax advantages or creating a tax liability? Many current insurance policies provide valuable income tax benefits. These are not available in some new policies. Cancellation of your current policy may increase your income tax this year. Make sure that you fully understand the tax consequences of changing policies.

| Some policies have a cash value, which means that some of the insurance premium goes into a reserve that grows in value. The owner of the policy has the option of taking out this cash value, which may end the policy or reduce the death benefit. Does this policy have a cash value? |                     |                             |
