- (c) the Party finds a pattern of conduct indicating that an importer, exporter, or producer has provided false or unsupported declarations that a good imported into its territory is an originating good.

8. The competent authority of the exporting Party may, at the request of the Party carrying out a verification visit pursuant to paragraph 1(b), call on the producer or the exporter to make available, inter alia, relevant documentation and accounting records; and permit inspection of materials, production facilities and processes.

9. Where a verification visit has been notified, any modification of the information referred to in this Article shall be notified in writing to the competent authority of the exporting Party, who in turn shall immediately notify the modifications to the producer or the exporter. Such modifications shall be notified by the importing Party no later than fifteen (15) days after the initial notification.

10. Each Party shall provide that, where its competent authority receives notification of the intention to carry out a verification visit, the competent authority may, within fifteen (15) days of receipt of the notification, inform the competent authority of the other Party, in writing, of its intention to postpone the proposed verification visit for a period not exceeding thirty (30) days from the date of such receipt or for such longer period as the Parties may agree. The verification visit may only be postponed once.

11. A Party may not refuse preferential tariff treatment to goods based exclusively on the postponement of the verification visit pursuant to paragraph 10.

12. The Parties shall permit an exporter or a producer whose goods are the subject of a verification visit to designate two observers to be present during the visit. The said observers shall not participate in a manner other than as observers. The failure of the exporter or producer to designate observers shall not result in the postponement of the visit.

13. The procedure to verify origin performed by the competent authority of the importing Party, as set out in this Article, shall be completed within a maximum term of three hundred and sixty-five (365) days. Notwithstanding the above, in cases duly justified, such term may be extended for one time only as the Parties may agree.

Article 22: Findings of the Verification

1. The Party conducting a verification shall provide the exporter or producer whose goods are the subject of the verification with a written determination of whether or not the goods qualify as originating goods, including findings of fact and the legal basis for the determination, within twenty-one (21) days of the conclusion of the verification exercise.

2. Each Party shall provide that, if within the terms set out in paragraph 1 its competent authority does not issue the findings of the origin determination, the good or goods subject to the origin verification shall have the right to preferential tariff treatment.

3. Each Party shall provide that where its competent authority, at the conclusion of the verification procedure as set out in Article 21, determines that a certain good imported into its territory does not qualify as an originating good, the Party's determination shall not become effective until it notifies its determination in writing to both the importer of the good and the competent authority of the exporting Party. Upon the dispatch of such notification the importing Party may deny tariff treatment in accordance with Annexes A and B of this Agreement, to goods which would have been the subject of such determination.

4. If a Party denies preferential tariff treatment to a good, pursuant to a determination made under the preceding paragraph, it shall postpone the effective date of the denial for a period not exceeding ninety (90) days where the importer of the good, or the exporter who made the declaration on the Certificate of Origin for the good, demonstrates it has relied in good faith to the detriment on the tariff classification or value applied to such materials by the customs authority of the Party whose territory the good was exported.

Article 23: Guarantee of Payment of Revenue

1. In no case shall the customs authorities of the Parties interrupt an import procedure of the products covered by a Certificate of Origin. However, the customs authority of the importing Party, in addition to requesting the appropriate additional information from the competent authority of the exporting Party, may adopt any action it deems necessary to safeguard its fiscal interests.

2. The customs authority of the importing Party shall take appropriate action with respect to any financial security given to protect the fiscal interest based on the determination of the verification.

Article 24: Appeals

Each Party shall establish procedures for the review of decisions by the relevant authorities regarding the origin verification procedures.

Article 25: Penalties

Each Party, in its legislation, shall provide penalties for breaches of the provisions of this Annex which shall be similar to those applied for breaches of its laws and regulations in similar circumstances.

Appendix I

Specific Rules of Origin

General Interpretative Note

1. A requirement of a change in tariff classification applies only to non-originating materials.
2. Where a specific rule of origin is defined using the criterion of a change in tariff classification, and it is written to exempt tariff items at the level of a Chapter, heading or subheading of the Harmonized System, it shall be construed to mean that the materials corresponding to such tariff items must be originating for the good to qualify as originating.
3. When a specific rule of origin is defined using the criterion of change in tariff classification, and the terms "within these subheadings" or "within this subheading" are used, it shall be construed that any production process confers origin, except for those processes set out under Article 5 of Annex C.
4. When a heading or tariff subheading is subject to optional specific rules of origin it is sufficient to comply with one of them.

The arbitral panel shall provide the Parties a copy of any information or technical advice submitted and an opportunity to provide comments.

Article 16: Initial Report

1. Unless the Parties otherwise agree, the arbitral panel shall base its report on the relevant provisions of this Agreement, on the submissions and arguments of the Parties, and on any other information before it pursuant to Article 15.
2. Unless the Parties otherwise agree, the arbitral panel shall, within ninety (90) days after establishment, present to the Parties an initial report containing:
 - (a) findings of fact, including any findings pursuant to the request under Article 11;
 - (b) its determination as to whether the measure at issue is inconsistent with the obligations of this Agreement; and
 - (c) recommendations to bring the measure into compliance with this Agreement and the reasonable period of time within which to bring the measure into compliance.
3. The Parties may submit written comments on the initial report within fourteen (14) days of its presentation. The arbitral panel may, at the request of a Party, reconsider its report and make any further examination that it considers appropriate after considering such written comments. The final report shall include a discussion of any comments by the Parties.

Article 17: Final Report

1. The arbitral panel shall present a final report to the Parties, including any separate opinions on matters not unanimously agreed, within thirty (30) days of presentation of the initial report, unless the Parties otherwise agree.

Article 18: Implementation of Final Report

1. The final report of an arbitral panel shall be binding on the Parties and shall not be subject to appeal. The Party concerned shall implement the decision contained in the final report of the arbitral panel in the manner and within the time-frame that it recommends, unless another period of time for implementation is agreed upon by the Parties.

2. If, at any time up to thirty (30) days prior to the deadline for implementation determined under paragraph 1, the Party concerned considers that it will require further time to comply with the final report of the arbitral panel, it shall inform the complaining Party of the extra period that it requires, and simultaneously shall enter into negotiations with a view to developing a mutually acceptable compensation for this additional period until it comes into compliance with the final report. The Parties may agree to extend the deadline for implementation determined under paragraph 1, any time within twenty (20) days prior to the expiry of the deadline for implementation determined previously.

3. Notwithstanding paragraph 2, where the final report of the arbitral panel states that a measure is not in compliance with this Agreement, the responding Party shall bring its measure in conformity with the provisions of this Agreement.

4. Where there is disagreement as to the existence or consistency with this Agreement of measures taken within the reasonable period of time to comply with the decision of the arbitral panel, such dispute shall be decided through recourse to the dispute settlement procedures in this Annex, including wherever possible by resorting to the original arbitral panel.

5. The arbitral panel shall provide its report to the Parties within sixty (60) days after the date of the referral of the matter to it. When the arbitral panel considers that it cannot provide its report within this time-frame, it shall inform the Parties in writing of the reasons for such delay together with an estimate of the period within which it will submit its report. Any delay shall not exceed a further period of thirty (30) days unless the Parties otherwise agree.

Article 19: Non-Implementation - Suspension of Benefits

1. If the arbitral panel established under Article 18 finds that the measure of the Party concerned is not in compliance with the final report of the arbitral panel under Article 17, the Party concerned, if so requested by the complaining Party, shall immediately enter into negotiations with the complaining Party with a view to reaching a mutually acceptable compensation or solution. If no mutually acceptable compensation or solution has been reached within fifteen (15) days after the request of the complaining Party to enter into negotiations, the complaining Party may suspend the application of benefits of equivalent effect to the responding Party.

2. The suspension of benefits shall last until the responding Party implements the decision of the arbitral panel's final report or until the Parties reach a mutually satisfactory agreement on the dispute.

3. In considering what benefits to suspend pursuant to paragraph 1 the complaining Party may seek to suspend benefits in the same sector(s) as that affected by the measure that the arbitral panel has found to be inconsistent with the obligations prescribed in this Agreement.

4. Upon written request of the Party concerned, the original arbitral panel shall determine whether the level of benefits proposed to be suspended by the complaining Party is not commensurate with equivalent effects pursuant to paragraph 1. If the arbitral panel cannot be established with its original members, the procedures set out in Article 13 shall be applied.

5. The arbitral panel shall present its determination within sixty (60) days from the request made pursuant to paragraph 4. The ruling of the panel shall be final and binding. It shall be delivered to the Parties and be made publicly available.

6. Any suspension of benefits shall be restricted to benefits accruing to the other Party under this Agreement.
